Needs and Uses: Designation as an Eligible Telecommunications Carrier (ETC) makes a telecommunications carrier eligible to participate in the Universal Service Fund's high-cost program, which support the extension of telecommunications services to underserved rural communities. In the absence of this information collection, the Commission's ability to oversee the use of Federal universal service funds and to combat waste, fraud, and abuse in the use of Federal funds would be compromised. Section 54.202 of the Commission's rules requires carriers seeking designation from the Commission to submit an application that certifies that the carrier will comply with the service requirement applicable to the support that it receives, 47 CFR 54.202(a)(1)(i); applicants must submit a five year plan that describes with specificity proposed improvements or upgrades to the applicant's network throughout its proposed service area, with estimates of the area and population that will be served as a result of the improvements, § 54.202(a)(1)(ii); an applicant must demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure

Title: Payment Instructions from the Eligible Entity Seeking Reimbursement from the TV Broadcaster Relocation Fund.

Form Number: FCC Form 1876.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions and state, local or tribal government.

Number of Respondents and Responses: 1,000 respondents; 2,000 responses.

Estimated Time per Response: 3 hours.

Frequency of Response: One-time reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in the Middle Class Tax Relief and Job Creation Act of 2012, Pub. L. No. 112-96 (Spectrum Act) § 6403(b)(4)(A).

Total Annual Burden: 6,000 hours.

Total Annual Cost: No Cost.

Privacy Act Impact Assessment: This information collection does not affect individuals or households; thus, there are no impacts under the Privacy Act.

Nature and Extent of Confidentiality: The information collection includes information identifying bank accounts and providing account and routing numbers to access those accounts. FCC considers that information to be records not routinely available for public inspection under 47 CFR 0.457, and exempt from disclosure under FOIA exemption 4 (5 U.S.C. § 552(b)(4)).

Needs and Uses: This collection was approved under the emergency processing provision of the Paperwork Reduction Act (PRA), 5 C.F.R. § 1320.13. The Commission is now requesting OMB approval for this information collection for a full three year term. The Spectrum Act requires the Commission to reimburse broadcast television licensees for costs “reasonably incurred” in relocating to new channels assigned in the repacking process and Multichannel Video Programming Distributors (MVPDs) for costs reasonably incurred in order to continue to carry the signals of stations relocating to new channels as a result of the repacking process or a winning reverse auction bid.¹

The Commission decided through notice-and-comment rulemaking that it will issue all eligible broadcasters and MVPDs an initial allocation of funds based on estimated costs, which will be available for draw down (from individual accounts in the U.S. Treasury) as the entities incur

expenses, followed by a subsequent allocation to the extent necessary. The reason for allowing eligible entities to draw down funds as they incur expenses is to reduce the chance that entities will be unable to finance necessary relocation changes.²

The information collection for which we are requesting approval is necessary for eligible entities to instruct the Commission on how to pay the amounts the entities draw down, and for the entities to make certifications that reduce the risk of waste, fraud, abuse and improper payments.
